

## **SENIOR TECHNICAL DESIGNER / ASSOCIATE**

### **About SCAPE**

SCAPE is a leading landscape architecture and urban design studio based in New York City with an office in New Orleans. Our work integrates natural cycles and systems into environments across all scales, with the ultimate goal of connecting people to their immediate environment and creating dynamic and climate-adaptive landscapes of the future.

### **About the Role**

SCAPE is seeking a Senior Technical Designer / Associate. Ideal candidates should have 8 to 10 years of professional experience in landscape architecture, with an emphasis on project management, technical documentation (drawings and specifications) and landscape construction. Candidates should be eager to work in a fast-paced collaborative environment and should be experienced in designing and documenting complex landscapes while advancing and managing projects across a variety of scales. All candidates should be well-rounded designers, detail-oriented, open collaborators and possess good communication skills. Candidate should be experienced in all aspects of technical documentation, QA/QC, developing and managing project budgets, collaborating directly with multi-faceted or complex client groups, leading and coordinating large consultant teams and managing several design teams simultaneously in varying project phases.

Please note: For the time being, SCAPE staff are currently working remotely in accordance with city, state and federal guidance. As public health guidelines evolve in the coming months, adjustments may be made to our in-person working capacity.

### **How to Apply**

Please email a resume and work samples in PDF format (under 5 MB) to to [jobs@scapestudio.com](mailto:jobs@scapestudio.com). Please include "SCAPE Senior Technical Designer / Associate" in the subject line of the email. No phone calls please.

### **Required Experience**

- Undergraduate or Master's degree in Landscape Architecture from an accredited University program;
- 8-10 years working in the landscape architecture profession;
- Professional licensure is preferred;
- Demonstrated experience leading teams of designers on complex projects from concept to construction;
- Experienced in QA/QC and internal technical document review;
- Experience leading multidisciplinary teams with extensive coordination between consultants;
- Experience collaborating and directly interfacing with public and private client or stakeholder groups of varying sizes and types;
- Demonstrated experience in construction administration and developing complex landscapes-on-structure are a plus;
- High level of proficiency in MS Office, project management software, Adobe Suite, AutoCAD;
- Proficiency in Rhino, Sketch up, or other three dimensional modeling software is preferred.

SCAPE is an Equal Opportunity Employer. All qualified applicants will receive consideration for employment without regard to race, color, gender, religion, sexual orientation, gender identity and expression, national origin, age, disability, genetic information, marital status, amnesty, or status as a covered veteran in accordance with applicable federal, state, and local laws.
